Claim Rejections

Claim rejections under 35 U.S.C. §112

Claims 2, 8 and 14 stand rejected under 35 U.S.C. §112, second paragraph. Claims 2 and 14 have been amended to remove the language "for example," "such as," and "the like." Claims 2 and 14 have also been amended to replace the term "Velcro" with "hook-and-loop." The specification has been amended to provide support for this amendment. Claim 8 has been amended to remove the example. Reconsideration and withdrawal of the 35 U.S.C. §112 rejection is respectfully requested.

Claim rejections under 35 U.S.C. §102

Claims 1-4, 7-16, and 19 stand rejected under 35 U.S.C. §102 as anticipated by the U.S. Patent No. 5,067,063 to Granneman et al. ("Granneman"). Applicant respectfully traverses this rejection.

Independent claim 1 recites, *inter alia*, a partition for the interior space of a bag, especially for a handbag. The partition has a receiving part for at least one flat light source. The partition is transparent on at least one side at least in the area of the at least one light source.

Independent claim 9 recites, *inter alia*, a bag with a lighting means for illuminating the interior of said bag. The lighting means comprises at least one flat light source. The at least one light source is designed such that *the at least one light source forms a partition for the interior space of said bag.* At least one partition, which has a receiving part for the at least one flat light source, is provided in the interior space of said bag. The partition is transparent on at least one side at least in the area of the at least one light source.

In order to anticipate a claim under 35 U.S.C. §102, the reference must teach every element of the claim. M.P.E.P. §2131. Furthermore, "the identical invention must be shown in as complete detail as is contained in the . . . claim." *Richardson v. Suzuki Motor Co.*, 868 F.2d 1226, 1236 (Fed. Cir. 1989) and M.P.E.P. §2131.

Granneman discloses a lamp 22 that is mounted on the interior lining of a handbag 38. Granneman, col. 3, lines 13-14. Granneman further discloses that lamp 22 could slide into a pocket having a clear window. Granneman, col.3, lines 15-17. In another embodiment, Granneman discloses a lamp 22 mounted between interior lining 42 and outside wall 46 of a handbag 38. Granneman, col. 3, lines 43-45.

Amendment Dated:December 17, 2007 Reply to Office Action of October 5, 2007

Each of claims 1 and 9 recites a partition. By way of example only, Applicant's FIG. 2 discloses a claimed partition 3 in use in a bag 1. Partition 3 is used to partition the interior 2 of bag 1 into two separate compartments. Lamp 22 disclosed in Granneman, however, does not form a *partition*, but is merely adhered to lining 42. Further, Granneman fails to disclose or suggest that *the partition* is transparent, as is recited in each of claims 1 and 9.

Because Granneman fails to disclose or suggest every limitation in each of independent claims 1 and 9. Applicant respectfully submits that the rejection of claims 1 and 9 is improper. Applicant respectfully requests reconsideration and allowance of claims 1 and 9. Claims 2-4, 7, and 8 all ultimately depend from claim 1 and claims 10-16 and 19 all ultimately depend from claim 9. Applicant respectfully submits that claims 2-4, 7, 8, 10-16, and 19 are all allowable over Granneman for at least the same reasons set forth above with respect to claims 1 and 9. Applicant respectfully requests reconsideration and allowance of claims 2-4, 7, 8, 10-16, and 19.

Claim rejections under 35 U.S.C. §103

Claims 5, 6, 17, and 18 stand rejected under 35 U.S.C. §103 as unpatentable over Granneman. Claims 5 and 6 depend from claim 1 and claims 17 and 18 depend from claim 9. Applicant respectfully submits that claims 5 and 6 and claims 17 and 18 are allowable over Granneman for at least the reasons set forth above with respect to claims 1 and 9, respectively. Applicant respectfully requests reconsideration and allowance of claims 5, 6, 17, and 19.
